

YOUR CHILD'S HOME FOR HEALTH AND WELLNESS

September 18, 2017

To all our wonderful parents and patients,

Dawson Pediatrics is a Level 3 Patient Centered Medical Home recognized by the National Committee for Quality Assurance. This is the highest recognition a practice can receive from NCQA as a medical home. For you, this means you are surrounded by a team that continually strives to meet our patient needs and coordinate your child's care through teamwork and our partnership with you.

We have been tracking data for several measures that we have been using for our Patient Centered Medical Home project. Below are a few examples of some of the data we're measuring to help keep us accountable and accessible to you and your children.
